*Your Partner for Smarter Technology  
and AI-driven Innovation...*

# About CodeEpsilon

Services

Since 2014, CodeEpsilon has been empowering businesses with transformative technology solutions. Today, we're accelerating that transformation with the power of Artificial Intelligence – enabling automation, personalization, and actionable insights at the core of modern digital systems.

We specialize in crafting next-generation applications tailored to meet specific business goals. Our focus is on delivering innovative, scalable, and cost-effective solutions that solve real-world challenges – on time and within budget.

## Enabling the Future with AI-Powered Solutions, Services, and Enablement

*We transform Ideas into High-Quality Marketable AI-Powered Business Solutions with the precision of time and budget.*

With a proven track record across global B2B and B2C ecosystems, we help our clients go to market faster, with high precision and measurable results. Our flexible, client-centric delivery models ensure agility, quality, and a true competitive edge in an ever-evolving digital landscape.

We accelerate digital transformation through AI. From enhancing existing systems with intelligent automation to building custom AI solutions from the ground up, our team empowers businesses to unlock growth, efficiency, and insight with

Better Application Experiences

**3x**

or more increase in user engagement

Faster Development Cycles

**50%**

time-to-market reduction for business-critical apps

Lower Overall Costs

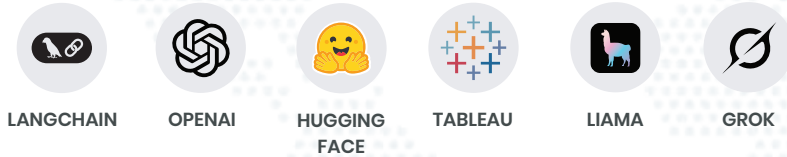

**40%**

decrease in application design and development costs

# Technology Stack

Your growth deserves the right tech. Let's create it together – reach out now.

# AI-Driven Innovation

*AI can future-proof your business. Lead with AI-Transform with CodeEpsilon. Reach out now.*

We help businesses evolve through smart automation, predictive intelligence, and personalized digital experiences by embedding AI into every layer of their solutions.

## Our AI Capabilities

# Services for Your Growth

Engage with us today for our end-to-end AI-enabled IT services and give your business the edge over its competitors!

## AI-Powered Business Acceleration

Transform your operations with AI-driven intelligence and automation.

AI Enablement of Products and Workflows

Custom Machine Learning Model Development

Generative AI & NLP Solutions

Intelligent Data Visualization Dashboards

Chatbot & Virtual Agent Development

## End-to-End Digital Transformation

Reimagine your digital landscape with innovative engineering and modernization.

Product Engineering & Development

Legacy Product Migration

Application Modernization

Business Process Re-engineering

## Cloud & DevOps for Scale & Speed

Drive scalability and agility with cloud-first strategies and DevOps automation.

Cloud Enablement & Optimization

Seamless Cloud Migration

DevOps Strategy & CI/CD Automation

## Assured Delivery & Managed Services

Extend your team and ensure business continuity with expert support.

Staff Augmentation Services

Application Maintenance & Support

Remote Infrastructure Management

### System Integration & Interoperability

Connect systems seamlessly and enable unified digital ecosystems.

API Development & Third-Party Integrations

Integration with Existing Platforms

Enterprise System Interoperability

### Strategic IT Consulting & Management

Navigate technology challenges with expert guidance and proven frameworks.

IT Strategy & Consulting

Digital Transformation Advisory

Program & Project Management

### Custom Software Engineering

Build robust, scalable, and high-performance applications tailored to your needs.

Web & Mobile App Development

Custom Software Development

CMS & eCommerce Solutions

### Experience-Led UI/UX Design

Design experiences that delight users and drive engagement.

UI/UX Design for Web & Mobile

Prototyping & Wireframing

End-to-End Product Design

# Engagement Models Offered

*Choose the flexibility you need. Talk to us to find the ideal engagement fit.*

## Fixed Price Model

- Pre-defined deliverables and budget
- Low risk with no scope deviation
- Ideal for MVPs, pilot projects, PoC or projects with defined phases
- Minimal client supervision required
- Predictable costs and outcomes

**Best for:** Well-defined projects with clear scope and timelines

## Time & Material (T&M)

- Agile development with flexible scope and timelines
- Pay-as-you-go based on actual effort
- Allows iterative improvements and ongoing feedback
- Suitable for projects where priorities shift frequently
- Offers transparency and control over budget and pace

**Best for:** Dynamic projects with evolving requirements

## Dedicated Team / Outstaffing

- Full-time resources exclusively aligned to your project
- Seamless collaboration with in-house teams
- Client-driven task management and execution
- Scalable team based on evolving needs
- Ideal for startups, product companies, and enterprise extensions

**Best for:** Long-term development and maximum control
