FROM RURAL ROOTS TO GLOBAL IMPACT

“யாதும் ஊரே யாவரும் கேளிர்”

Our Origin

Kaniyan Poongundranar, the renowned Tamil philosopher-poet who proclaimed “யாதும் ஊரே யாவரும் கேளிர்” – “The world is one, and all are kin” was born in the Sivagangai district of Tamil Nadu, India.

Inspired by his universal vision of equality and inclusivity, **HEEW HR Solutions** was founded in Sivagangai, carrying forward the same spirit, connecting people beyond boundaries.

We identify and empower untapped rural talent students, homemakers, differently-abled individuals, and part-time professionals linking them to global opportunities. Through education, employment, and empowerment, we bridge talent gaps and create pathways where human potential meets purpose.

A 360° ecosystem linking education, employment & empowerment

Equal Employment for All

I had a great experience with Heew! One of the best things about them is that they don't charge any service fees for job placements. The process was very transparent and smooth. Their team was extremely supportive in helping me choose the right job based on my skills and preferences. They gave clear guidance to get job. If you're looking for job opportunities without hidden costs and with real support, Heew is definitely a great choice.

Dear Friends and Connections, HEEW HR Solutions is an enterprising HR Consulting Company. I have come across in the last two years. HEEW's purpose is simple and straightforward. Connect talent with opportunities. HEEW HR is among the few in Tamil Nadu to focus on DEIBA and especially the first generation graduates, who need larger assistance to aspire, engage and actualize their potential. Let's bootstrap them and support them as they are striving to provide for the future.

HEEW gives a better opportunity and platform for womens to bring out their talents through pan project and covert into money from their sitting place itself

True to our DEI mission, our team proves daily that inclusion is not a value on paper — it's how we work. Every project, whether local or global, reflects our commitment to human potential and ethical growth.

Because when people thrive, businesses flourish — and societies transform.
