

A woman with dark hair and glasses on her head is smiling and looking at a white humanoid robot. The robot has a stylized face with blue eyes and a blue circular design on its head. They are in a bright, modern office environment. A large orange 'V' shape is overlaid on the image, with three orange dots placed along its vertical stroke.

## Olive

***Project scaffolding and code-gen CLI tool.***

Enforces code quality using integrated linters, static code analyzers, vulnerability scanners, and pretty-print formatters.

## Mustard

***A Kafka-Powered Enterprise Data Dashboard with Low-Code No-Code Capabilities***

Gain real-time updates and valuable insights from your data in a user-friendly and intuitive manner.

## Cargo

***Hassle-Free Monolith Migration to Cloud***

A Light weight, easy to use tool to migrate and deploy monoliths to the cloud in less than 10mins.

## Ebony

***The Ultimate Automation Tool for Web and Mobile Testing***

A low code automation tool to generate automated test scripts for both web and mobile.

# Industry Recognition

# Engagement Model and Recruitment Process

## Time and Material

- Billed monthly based on category of resources
- Provides flexibility and transparency
- Good for projects with evolving requirements

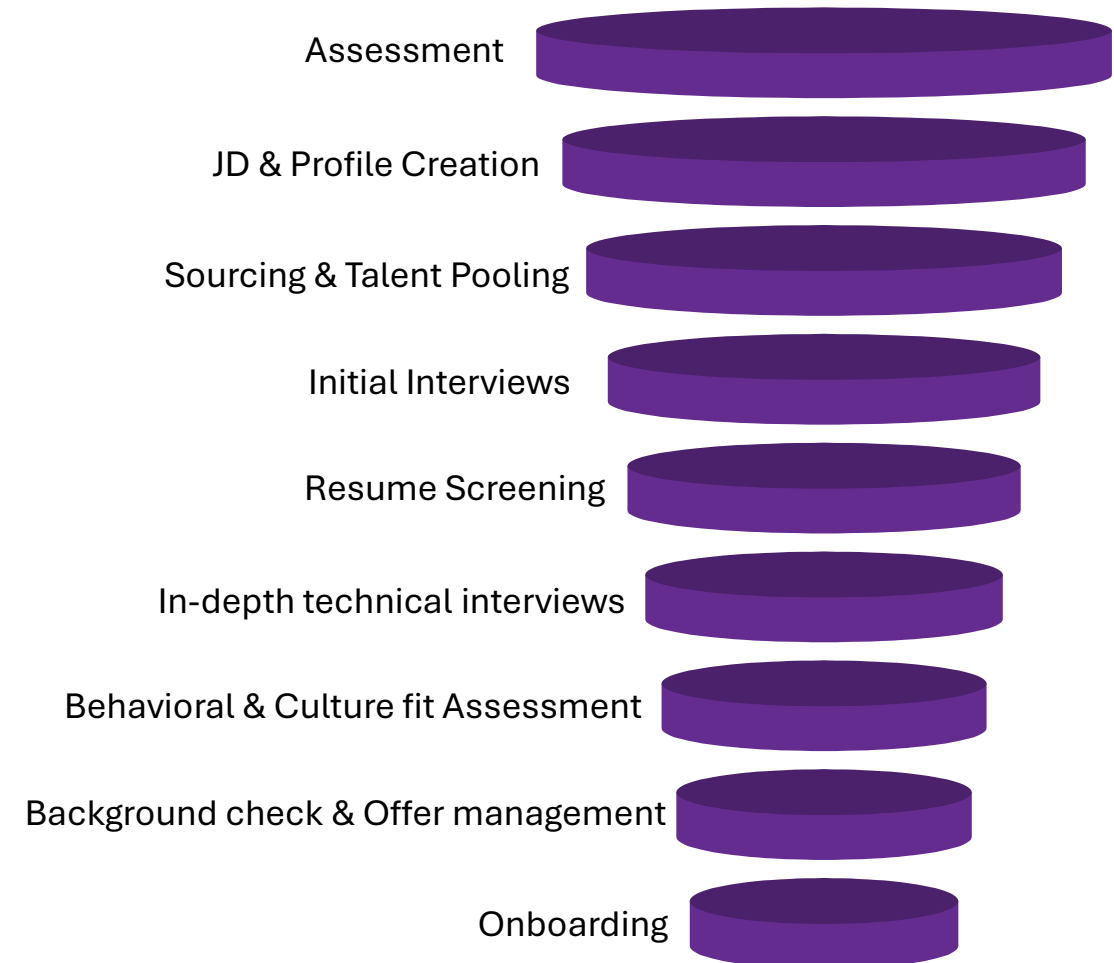

## Fixed Bid

- Based defined scope of work
- Provides predictability
- Good for well-defined scope

## Persistent Capacity model

- Monthly retainer for a dedicated team
- Guarantees a certain minimum number of hours of work (per resource)
- Cap on expenses in the event of a sudden spurt in demand

## Fulfilment of Resources Swiftly with High Quality

## A Few More Testimonials

*“Their commitment to supporting our product is evident by their prompt response to our request and needs.”*

**Kathleen Colatrella,**  
**Linea Systems**

*“The Goavega team brought together architectural design skills, technology expertise, quality assurance attention to detail and excellent project management. The result is an industry leading cloud-based auction platform using MS Azure.”*

**Bill Coleman**  
**COO, BigIron**

*“They took our vision and concepts, sometimes not entirely clear concepts, and were able to transform them into a working set of quality applications. Every member of the team is technically knowledgeable, responsive, and very team-oriented.”*

**Won Cho**  
**COO, Rynly**

*“WE DID IT GUYS! We hit the dates and EXCEEDED their expectations.”*

**Rini Gahir, CEO, Mozzaz Corporation**
