# TMA CORING TOOL

And Cassettes

# **PRECISION ENGINEERED**

## for Excellence

At Kern Kreare, we recognize that precision and efficiency are critical in tissue microarray (TMA) sample preparation. That's why our TMA Coring Tool and Cassettes are meticulously engineered in collaboration with pathologists, ensuring unparalleled accuracy that streamlines your workflow and enhances productivity.

Whether you are an experienced professional or just entering the field, our coring tool and cassettes offer a seamless and intuitive experience designed to meet your exacting standards.

# SEAMLESS OPERATION

## Superior Results

Identify and Attach the Perfect Coring Nozzle/Tip

### Quick Identification:

Effortlessly determine the size of the coring tip already attached or select the appropriate nozzle for your specific needs.

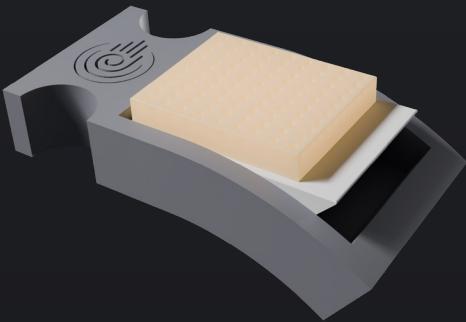

### Easy Attachment:

Secure the coring tip with just a few clockwise turns. The process is smooth, reliable, and quick.

# HASSLE-FREE Handling

## Effortless Tip Replacement:

Unthread the coring tip with a simple anticlockwise rotation, making it easy to switch to a new one in seconds.

**Convenient Cassette Handling:**  
Insert and secure the cassette with ease by holding it from the sides and dropping it into the provided non-slip cassette holder. When your work is done, simply pry open the cassette holder to remove it.

# Why Choose KERN KREARE?

## Durable and Reusable:

Designed for longevity, our coring tool maintains tissue integrity during embedding and is durable enough to withstand repeated use in micro-arraying.

## User-Friendly Design:

Our compact and ergonomic coring tool is designed for easy handling and portability, making it the perfect companion for any lab environment.

## Replaceable Nozzles and Tips:

Maintain peak performance with our easily replaceable nozzles and tips, available for purchase in 1.5mm, 2mm, 3mm, and 5mm sizes, ensuring your tool is always ready for precise coring.

## Colour-Coded Nozzles and Cassettes:

Our colour-coded packaging system simplifies identification, ensuring you can easily find the right nozzle and cassette during a busy day.

## Pre-Packaged, Ready-to-Use Cassettes:

Available in sizes 1.5mm, 2mm, 3mm, and 5mm, our individually packed cassettes save you time and streamline your workflow. Purchase them separately from Kern Kreare and focus on what truly matters—your research.

## Easy to Clean:

Our coring tool is not only effective but also easy to clean, making maintenance straightforward and hassle-free.

## Made Entirely in India:

Our tools and cassettes are proudly made entirely in India, enabling prompt customer service and swift delivery of replacement parts and cassettes whenever you need them.

## Maximise YOUR LAB'S EFFICIENCY

Kern Kreare's TMA Coring Tool and Cassettes are designed to optimise your lab's efficiency. Experience the difference in precision and convenience—order today and elevate the standard of your TMA sample preparation.

## Precision YOU CAN TRUST

Engineered to meet the highest standards, Kern Kreare's TMA Coring Tool and Cassettes deliver the reliability and accuracy that professionals demand. Consistent, high-quality results are now within your reach with every use.
