

JK Innovision
Your safety is our priority

JK Innovision is a Bengaluru-based security & surveillance systems supplier and service provider. We specialize in providing **end-to-end security solutions**. www.jkinnovation.com

Core Services & Goods

The company supplies and installs a full range of surveillance and access-security equipment, and also offers ongoing service support. Key offerings include:

- CCTV supply & installation (HD/IP cameras) — as the company states: “We provide a full range of security solutions — from CCTV to access control — tailored for every space and need.” jkinnovation.com
- Access control systems (e.g., RFID, biometric, ANPR)
- Boom barriers and vehicle-entry management systems
- Lift-cameras and intercom solutions
- Annual Maintenance Contracts (AMC) and service support for the systems installed
- Maintenance, repair, installation of security & safety equipment (as per the trademark filing) trademarkKing.in

Key Features / Differentiators

- The company emphasises a **technology-driven approach**, staying updated with latest surveillance trends (AI, cloud, remote monitoring) to keep client systems modern and effective. jkinnovation.com
- Long-term service orientation: not just installation but ongoing maintenance, warranties and AMCs.
- Tailored solutions for different segments — residential, commercial, industrial and public sector. jkinnovation.com
- Local expertise in Bengaluru with professional standards and scalable solutions, cost-effective and future-ready. jkinnovation.com

JK Innovision is your trusted partner in advanced security and surveillance solutions. Based in Bengaluru, we specialise in the design, supply, installation and ongoing support of high-quality systems that protect your assets, people and property.

Our offerings include: IP/HD CCTV systems, access control (RFID/biometrics/ANPR), boom barriers & vehicle entry management, lift-cameras, intercom systems and complete AMC support. With a strong emphasis on innovation, we integrate AI analytics, cloud-based monitoring and scalable infrastructure to meet the changing security needs of residential associations, corporate campuses, industrial facilities and public-sector sites.

At JK Innovision, we believe in not just delivering equipment, but building long-term relationships — keeping your systems running smoothly through preventive maintenance and expert service. Our mission is to give you peace of mind by protecting your world with reliable, cost-effective and customized surveillance solutions.
