Portfolio

ACE Router

- Installed at Branches/Small Offices
- 5 Gigabit Ethernet Ports
- Up to 3 SIM Slots for 4G/5G connectivity
- SD-WAN enabled for best performance for applications
- VPN over WAN/4G/5G
- Central Monitoring, Management and Reporting
- Zero Touch Deployment ready

Unified Security Gateway

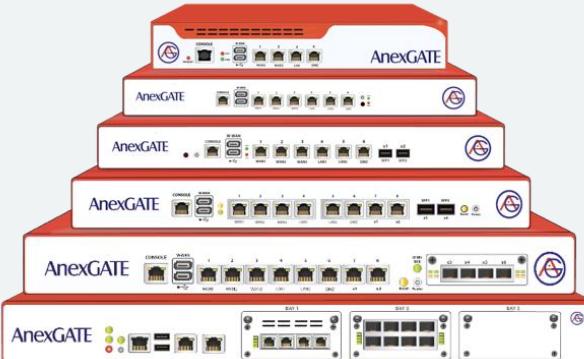

- Full Fledged NGFW/UTM Appliance
- Very high visibility into user activity
- SD-WAN Controller
- Intrusion Detection/Prevention System
- Web Filtering, URL Filtering, Content Filtering, L3 Firewall
- VPN Concentrator
- User Activity/Traffic Logs
- AAA Controller
- BGP/OSPF/RIP/etc..

Controllers and Cloud Add-Ons

- Controllers and Remote Monitoring Applications
- Can be used from AnexGate Cloud OR setup in customer cloud OR in customer premises/DC OR as a dedicated appliance
- Centralized AAA server
- Centralized Control of Many UTM/Routers
- Web Filtering Controller

AnexGate Unified Security Gateway (USG)

Full Fledged UTM Appliance with all features bundled

SD-WAN Controller, SD-WAN Policies, Performance based Routing

VPN Concentrator (SSL/IPSec/GRE), Multiple VPN servers in a single box

Detailed User Activity and Traffic Logs. Storage size customizable

Application Control and blocking

Self Hosted AAA Controller for WiFi Authentication

Web Filtering, Content Filtering, HTTPS Interception, L3 Firewall, Category database for web filtering

Intrusion Detection/Prevention Engine, Deep Packet Inspection, Anti-malware protection. Hourly security updates from AnexGate Cloud

AnexGate ACE Router

5 Fully Configurable (WAN/LAN) Gigabit Ethernet Ports

Load Balancing, Failover and Bandwidth Aggregation at connection level, can be used with AnexFuse Controller for packet level aggregation

Variants with up to 3 SIM Slots with 4G or 5G or a combination, WAN to SIM failover and load balancing

SD-WAN Router for edge location, WAN performance-based SD-WAN rules and routing policies, dynamic path selection

Built-in Wireless LAN with 2.4G and 5G

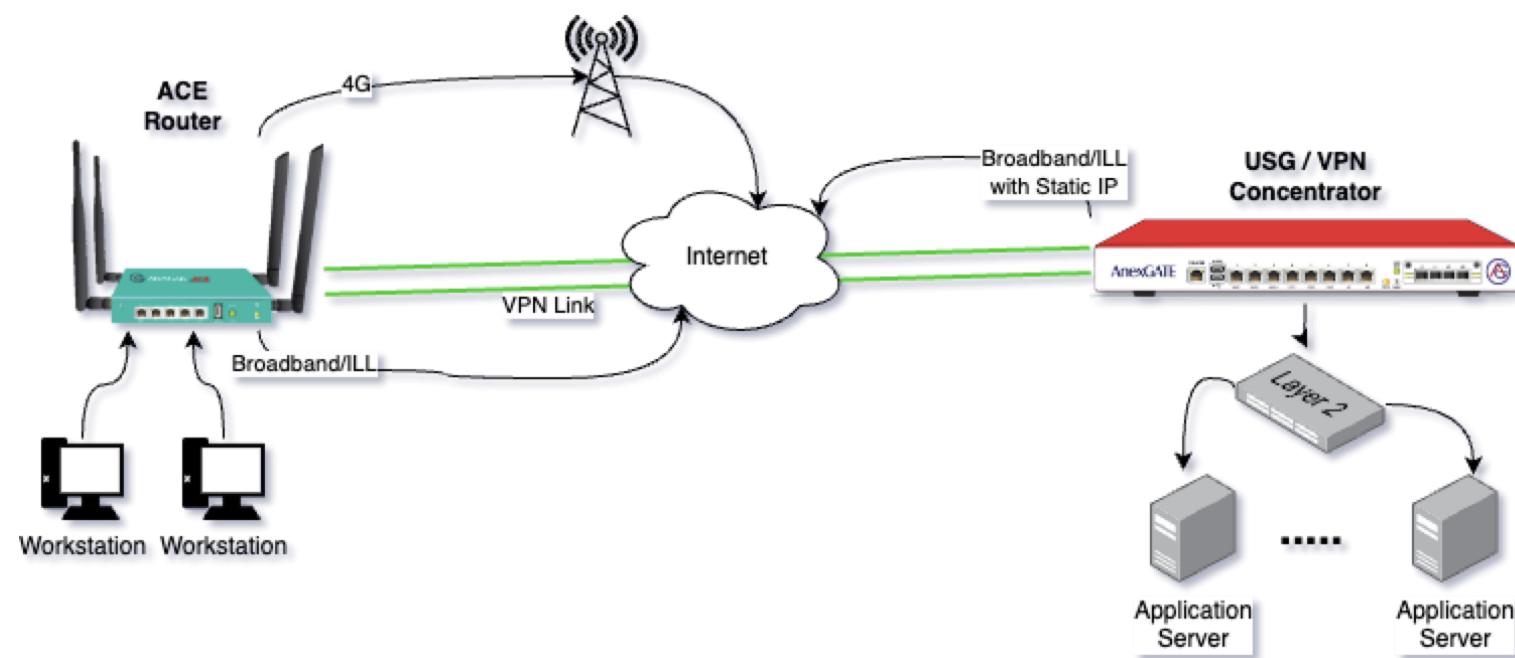

Support for BGP, OSPF, Static Routing, Failover Routing

AAA Client to be used with AnexHub for centralized AAA management

Complete web filtering capability with AnexHub Controller

Stateful L3 Firewall, Whitelist/Blacklist Web filtering,

Basic Deployment

- ACE Router does not require static IP for VPN
- Site-to-Site VPN can be setup with failover incase WAN goes down
- VPN can be setup using 4G/5G SIM or WAN to SIM failover
- Static IP only required at USG for connecting VPN/SD-WAN Controller

ACE Features

-
- 4095 VLANs on LAN/WAN Ports
 - IPv6 ready for WAN and SIM
 - Bridge multiple ports to act as a switch
 - SIM Quota based failover
 - 2.4G and 5G Wireless LAN in AP, Repeater and Client Mode
 - Automated VPN Tunnel monitoring and reinitialization
 - Stateful and Stateless DHCPv6 Server and Authoritative DHCPv4 Server
 - Static Routing, BGP, OSPF, etc...
 - On device L3 Firewall, SNAT, DNAT, Domain Filtering (whitelist/blacklist)
 - VPN Client - SSL, IPSec, GRE, PPTP, L2TP, SSTP, OpenVPN
 - SNMP v2, SNMP v3, LLDP Supported
 - NetFlow v9/IPFIX Traffic Export, Syslog Export

AnexConnect Network Monitoring System (NMS)

Anex**CONNECT**

Modern NMS for AnexGate ACE and AnexGate USG appliances

View Network Status, SIM Status, Device Status in real-time

Alerts if change of status of WAN/SIM, port change, VPN status via E-mail, SMS or Voice IVR notification

All appliances send information about events and status to the NMS periodically

Device GUI can be accessed via AnexConnect without Anydesk/Teamviewer

Other NMS can push/pull the events using JSON APIs from AnexConnect for more integration

AnexHub Controller

AnexGATE **Hub**

Controller for Add-on functions

AnexSpot - Authentication, Authorization, Accounting (AAA) Controller for ACE

✓ Zero Touch Deployment for ACE and USG devices

User level granular Web Filtering for all ACE Routers

Network Monitoring System

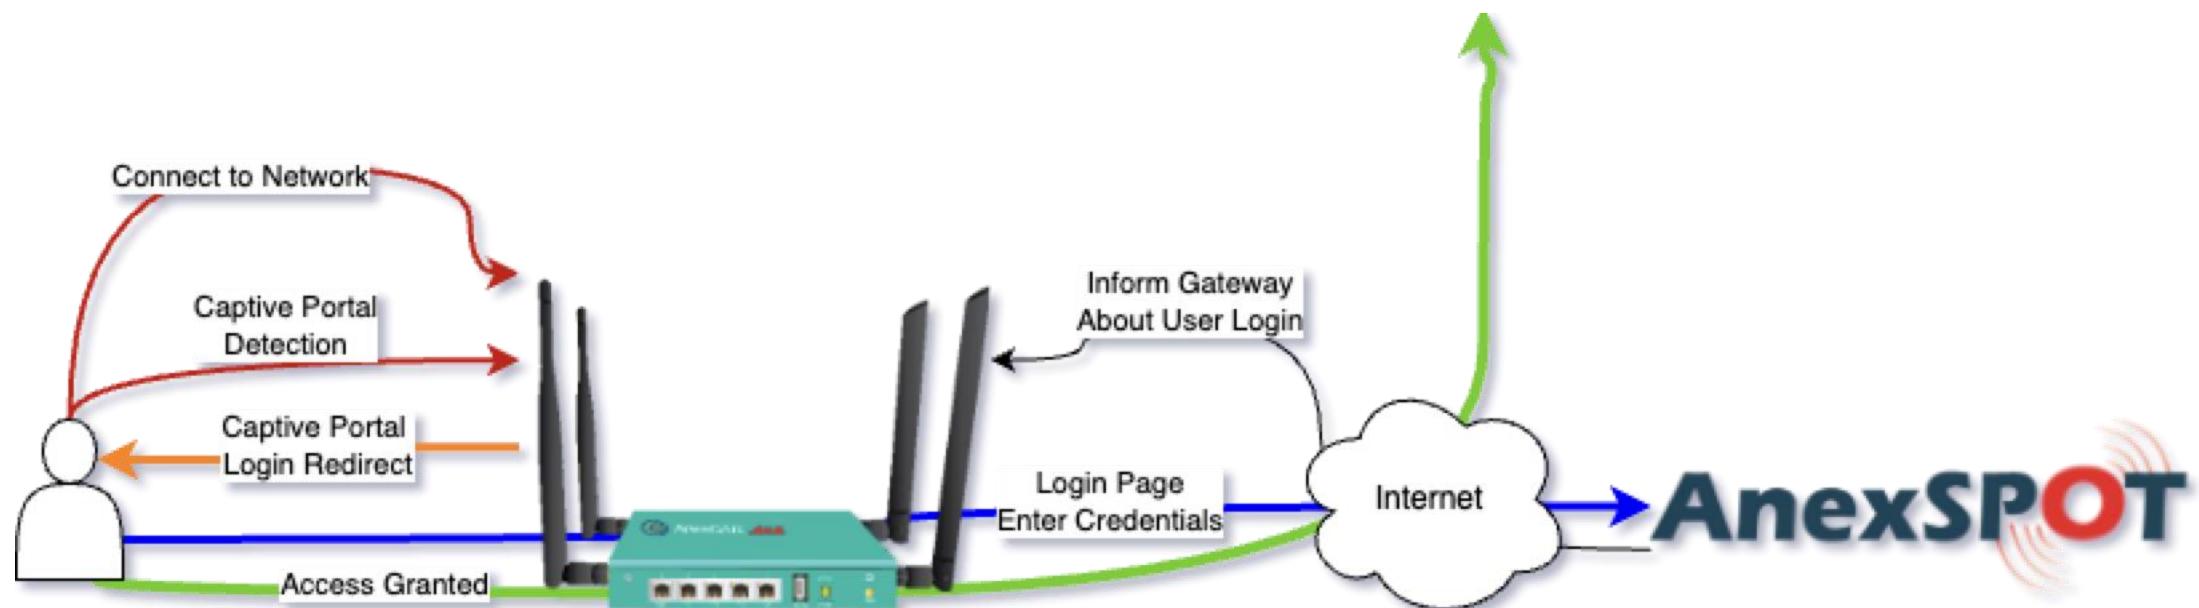

Multi-tenant system for 'n' customer accounts per controller

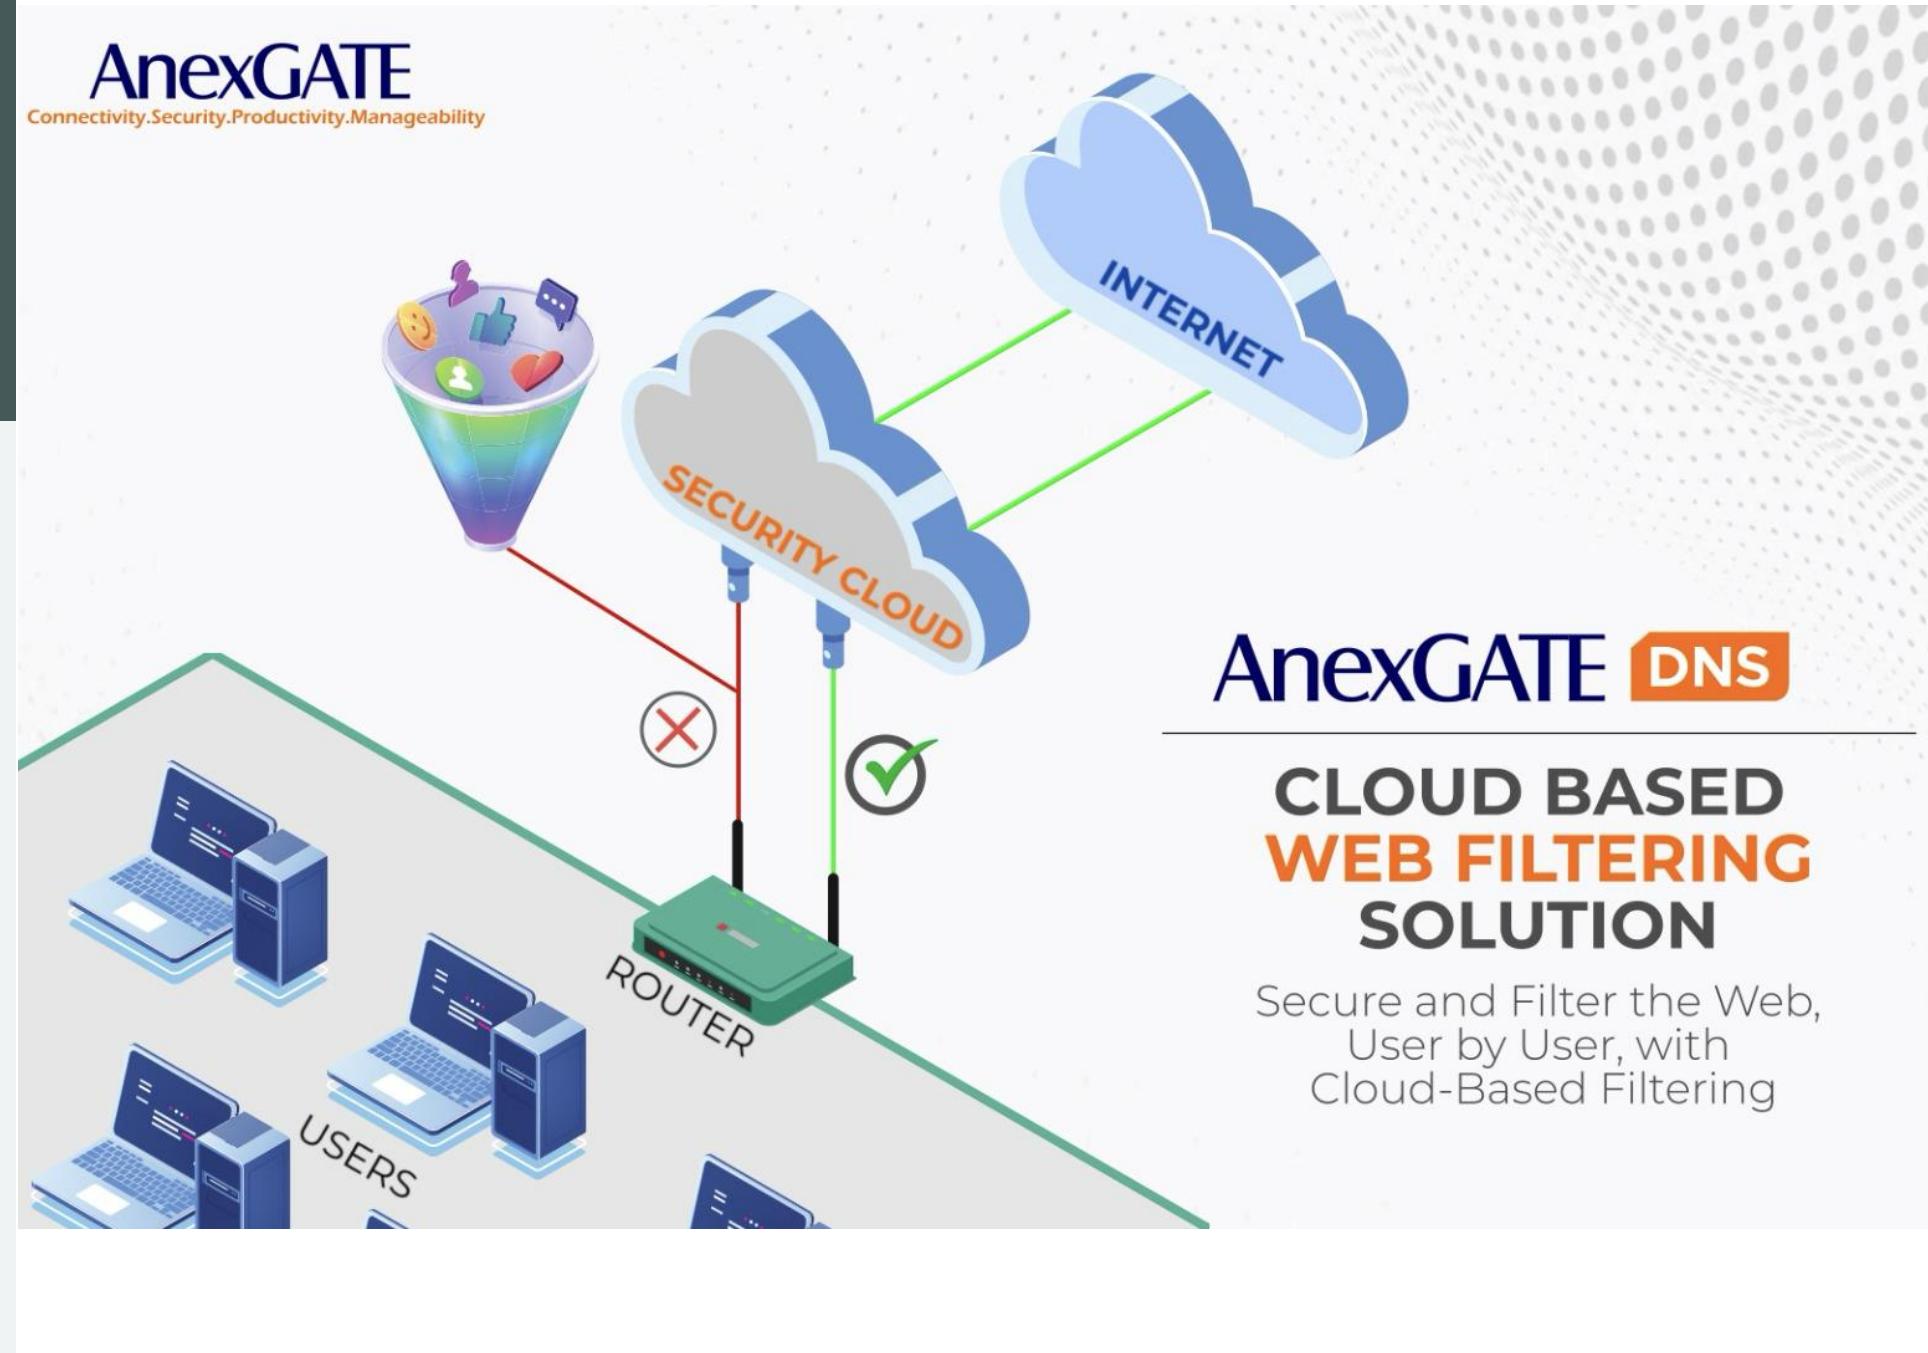

Centralized logging and reporting of all activity across entire fleet of installation

AnexHub – AnexSpot AAA

AnexHub – AnexDNS Filtering

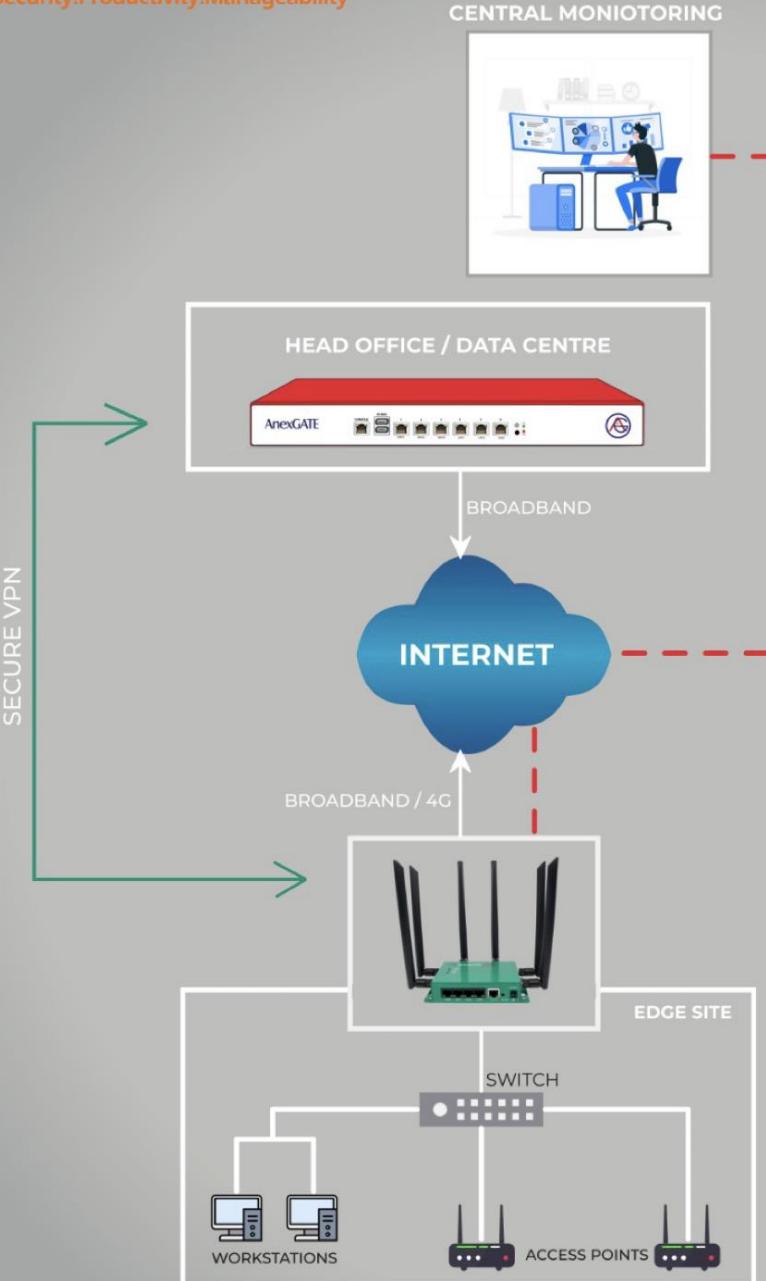

Complete Solution

Complete stack solution for UTM, SD-WAN, AAA, Web Security, VPN and Network Management

AnexGATE

Connectivity. Security. Productivity. Manageability

MADE IN
india
DESIGN, DEVELOPMENT
AND MANUFACTURING

CLOUD SERVICES

AnexFUSE

TRUE WAN AGGREGATION
WITH HIGH THROUGHPUT
AND ZERO PACKET LOSS

AnexGATE DNS

CLOUD MANAGED
WEB-FILTERING
WITHOUT UTM

AnexGATE Hub

ZERO TOUCH
DEPLOYMENT WITH
ZERO PANE OF GLASS

AnexCONNECT

MODERN NMS TO MANAGE
LARGE FLEET OF DEVICES

AnexSPOT

CLOUD HOTSPOT WITH
CENTRALIZED MANAGEMENT
AND REPORTS
