Our Services Make Happy Customers smile

The era of Renovation . . .

Mr. Parashuram
Waddar (CEO)

Mr. KS
Bammappanavar
Director

Mr. Mohan Babu
Projects Head

The work mindset of Waddar Engineering Services employees is governed by the mantra "Service with passion.", which perfectly translates the company's commitment to 100 % customer satisfaction through comprehensive, continuous support. Our customers wouldn't want it any other way.

Service with Passion

Straddling the OEMs with a network of service and service workman, WES is fully primed to provide local expertise, wherever you are and whenever you need it. Ensuring the operational availability of your equipment's, while offering reliable support when you need it most, our service solutions include machinery, Commissioning, installation, maintenance and repairs, customized service agreements and individual consulting.

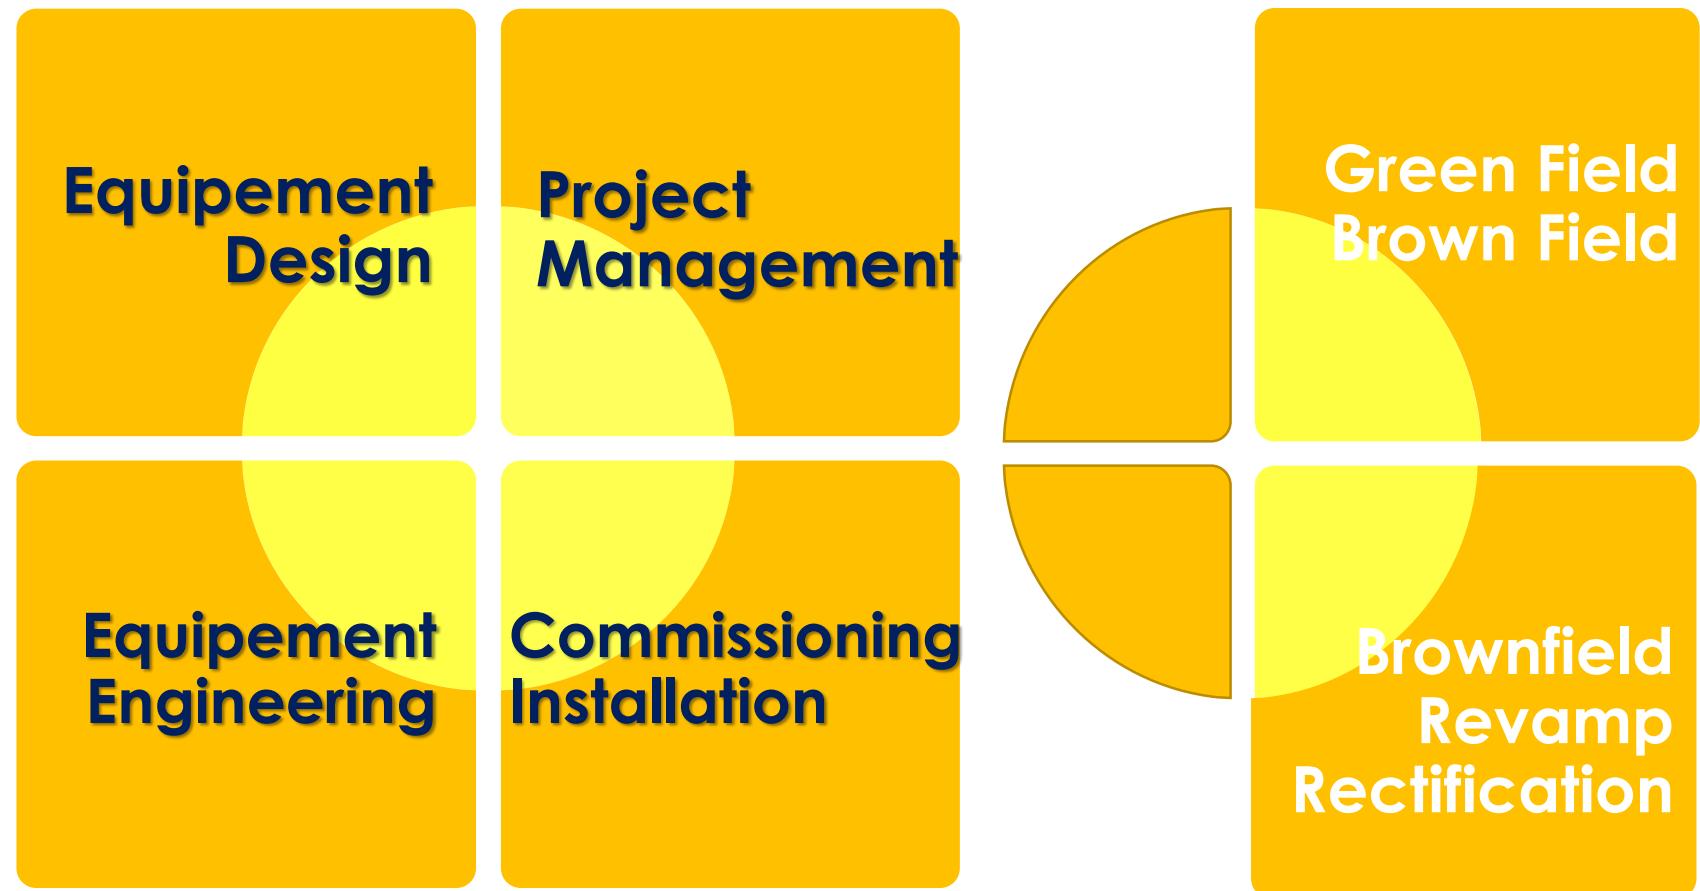

For existing equipment our holistic retrofit and modernization solutions keep your equipment up-to-date and at optimal levels of reliability, availability and economic efficiency. we're able to hike performance and minimize downtimes, while our remote connections enable live data analysis, ensuring quick, effective solutions. To further guarantee the efficient performance and safety of your machinery, our WES Academies provide expert training, developing the operational skills required.

**From Last 20 + Years ,
We are in Automotive, Process Industries
as Service Industry, with highest level of
customer satisfaction**

Insights.

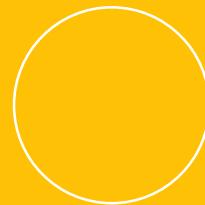

Challenges

A photograph showing several workers in a factory setting. They are wearing orange hard hats and light-colored work clothes. Some are standing near machinery, while others are walking through the aisle between rows of industrial equipment. The lighting is somewhat dim, suggesting an indoor manufacturing environment.

Benefits of Our Services

Safety
Improves

Productivity
Rise

Zero Net

Quality
Flow
Improves

Zero
Maint.

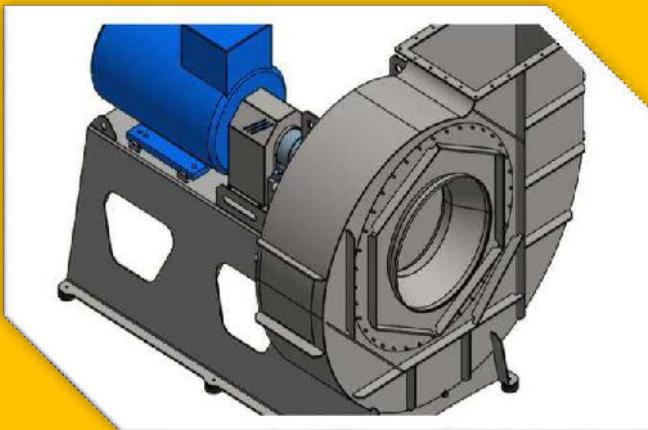

Uptime
Rise.

Services and solutions we offer

e.g.:

Damaged fans
Replacement with new energy efficient fans

Reduce breakdowns.
Improves process quality.
Energy saving up 15%.

Damaged pumps
Replacement with new energy efficient pumps

Reduce breakdowns.
Improves process quality.
Energy saving up 20%.

Clean Room Entry systems

Reduce dust entry to clean.
Product quality improvement.
Low maintenance.

Services and solutions we offer

e.g.:

Electrical energy saving EC fans replacement for air supply system

Energy saving up 30 to 40% .
Maintenance free.
Data monitoring and control.

Factory automation systems and Factory-4.0 up gradation

Reduce manpower 10 to 20* depends on requirements.
Safety improvement by automizing critical unsafe jobs.
Automated quality control .
Cost saving, low maintenance

Services and solutions we offer

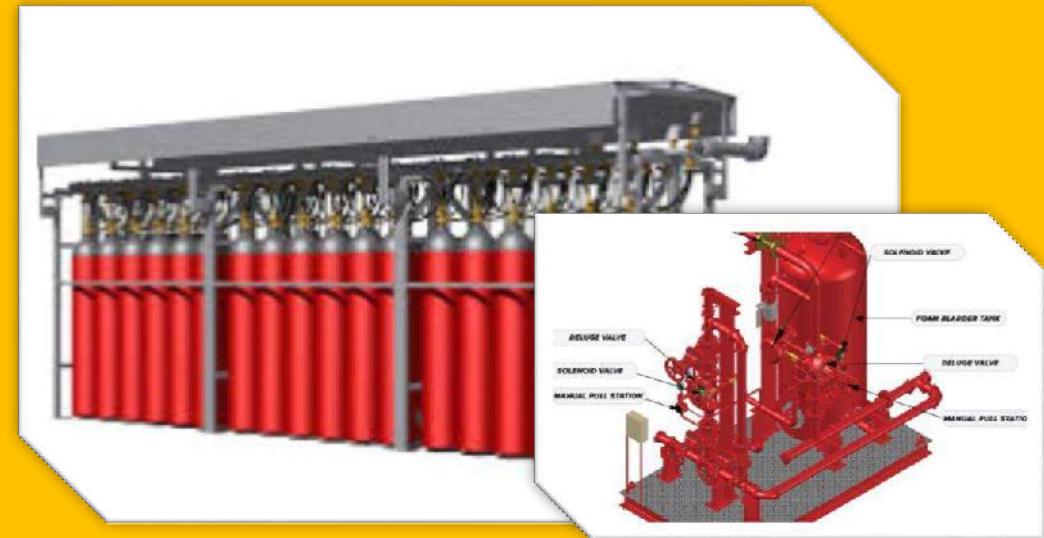

e.g.:

Process parameters monitoring system and control to meet factory-4.0 and IOT requirements

Visualization of critical parameters.
Realtime process parameter control .
Historical data back-up.
Improves product quality.
Reduces rework and rejections.

Fire Fighting system installation and upgradation of existing system

Realtime system healthiness monitoring.
Eliminate manual function of system.
Improves plant safety.
Reduces dependency on FPS OEM.

Services and solutions we offer

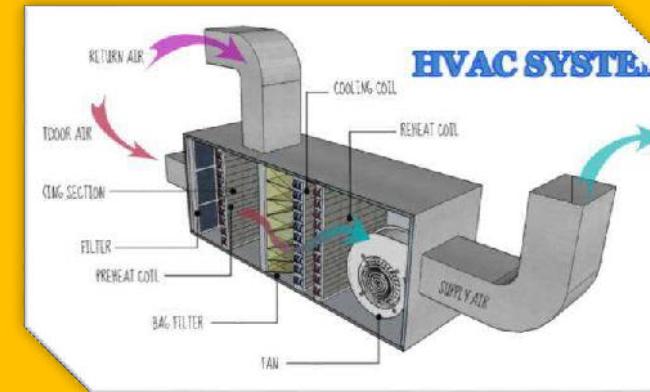

e.g.:

**Ventilation system design,
installation and improve
existing system**

**Energy efficient
HVAC System
installation and
improvement**

Energy saving up 30 to 50%.
Maintenance free .
Auto air velocity and temperature control.
Realtime data monitoring.

**Water consumption reduction
in Automotive plant and other
process system.**

Water saving up to 20 to 30%.
Automatic system to reduce
Bordon on operator monitor.

Services and solutions we offer

e.g.:

Auto Chemical dosing system installation and improvement , DI and RO plants installation with customized solutions and upgradation.

Precise chemical dosing and controlled chemical dosing.
Improves process quality.
Maintenance free and operator friendly system

Automobile paint shop, Chemical Process plants upgradation through instrumentation, piping and customized modifications.

Services and solutions we offer

e.g.: Customized dry and wet type paint booth adopting low cost energy efficient technology for design, engineering, supply and installation (For small parts and auto components)

Services and solutions we offer

e.g.:

We undertake heavy equipment, Structure installation, erection, and support for commissioning

1. Equipment installation
2. Electrical Installations
3. Piping and instrumentation
4. Interfacing activities with existing systems

Projects management

We support our customers for major and minor projects management to meet stringent milestones

- Project scheduling
- Project material and manpower planning
- Procurement support and supplier follow-up
- Quality control and management
- Safety management and control
- Weekly and daily work break-down to meet challenging milestones.
- Support final commission and setting
- Support for project documentation

Service Quality without Compromise

Whether industrial Equipment, WES is your premium service partner, providing expert support for quick Solutions, our goal is to ensure the efficient operation of your equipment, protecting your assets and helping you to enhance the profitability of your business.

**Our best service solution to suit each unique industrial application,
we provide technical servicing, individual consulting,
operational support, projects management,
contemporary modernization solutions and
comprehensive service agreements.**

Your equipment are safe with us.
