

**Prospectoo** is a **B2B data intelligence** platform built for SaaS, IT, and digital marketing teams that depend on accurate, real-time data to scale outbound and demand generation.

It provides verified mobile numbers and email IDs enriched with company, technographic, and intent insights that reveal when accounts are ready to buy.

Prospectoo is used by teams across:

1. **SaaS and IT Services** - to target key decision-makers for product demos and enterprise sales
2. **Cloud, Data, and Cybersecurity** - to reach CTOs, CIOs, and CISOs in high-growth companies
3. **Digital Marketing and Demand Gen Agencies** - to build precise outreach lists for clients
4. Recruitment and Staffing - to identify hiring companies and contact HR or tech leads directly
5. **Manufacturing, Finance, and Logistics** - to discover tech-enabled businesses for B2B partnerships
6. **Consulting and System Integrators** - to find accounts adopting new technologies or expanding IT budgets

With Prospectoo, you can:

1. Export verified leads from LinkedIn Sales Navigator
2. Filter by company size, revenue, funding, or tech stack
3. Identify active intent signals like hiring or cloud adoption
4. Build and enrich contact lists instantly
5. Integrate clean, verified data into your CRM or outreach tools

Trusted by 100+ teams, Prospectoo turns verified data into real conversations that drive pipeline and revenue across multiple industries.
