Biowin Agro Research

About us

Biowin Agro Research, a food manufacturing company, established in the year 2013 as an up-grade and extensive service of Wayanad Social service Society (WSSS) Estd -1974 to support the small and marginal farmers by marketing the wide range of organically grown spices, coffee and fruits in the misty hill folds of Wayanad, Kerala. It collects farm products directly from two Fairtrade farmer cooperatives namely WOFFA (FLO ID: 20255) and KAFFE (FLO ID: 34469) and processes in a modern processing facility named Bioland Agro Processing Center, Mananthavady, Kerala .

Vision

Self reliant & vibrant farming community living in a sustainable and healthy environment with cherishing human values of love, justice, solidarity and human dignity as well as their equity in the social capital ascertained.

Mission

Organizing and empowering the farming community to develop an unbeatable supply chain with ample standard of quality products to meet the satisfaction of customers through participatory development process coupled with innovative technologies and value addition
