

# ANONYMOUS

## Workplace Communication

Changing the way organisations communicate!

### CIRCLES

Create private "groups" inside the organization. Share posts, ideas, feedback with a curated audience (team, department, leaders)

### LINES

Anonymous one-on-one conversations. Let people speak privately and candidly with others.

### NO LIKES / NO SHARES

Metrics like likes/shares are removed so interactions stay meaningful – no popularity bias.

# BLUNT

### MULTI-FORMAT POSTS

Share text, photos, videos, audio, polls – choose who sees it each time. Maintain safe communication boundaries.

**BLUNT** is a groundbreaking enterprise application ...

Blunt empowers employees to share feedback, insights, & concerns anonymously, ensuring that every voice is heard without fear of repercussions.

### Who is it for?

- Progressive HR / People Ops teams aiming to build culture of openness.
- Leaders & Managers wanting honest insights.
- Organizations with remote, hybrid, or distributed teams.
- Businesses undergoing culture change or seeking better feedback loops.
