

# company profile

# about us

At Studio Carbon, we pride ourselves on our ability to transform **visionary concepts into market-ready products**. With a global footprint and a diverse portfolio, we bring a nuanced understanding of both emerging startups and established enterprises, ensuring each project is both impactful and meaningful. Whether pioneering designs for space exploration or redefining consumer experiences, we thrive on pushing the boundaries of creativity and technology.

## INDIA

Studio Carbon IN is headquartered in the green city of Gandhinagar, Gujarat, in the heart of the Industrial District. Fondly named the Carbon Compound, our hub of design and innovation is perfectly placed for prototyping and testing ideas. We believe in a collaborative approach and have built a team of multi-talented, multidisciplinary, and multicultural creators from across the country. No matter where we are from, we aim to tell captivating stories through our work and leave a mark on the story of humanity.

## THE NETHERLANDS

Studio Carbon NL has its presence in The Netherlands. Our studio in Zoetermeer gives us a unique perspective of two extreme markets and user bases, between Asia and Europe, helping us conceptualize designs with a global outlook. This international base also gives us a vantage point of the world of design, enabling us to collaborate with innovators from around the world.
