# Our Products

ADRO

ADRO is our flagship AI-powered analytics tool that helps you explore and understand your data in plain language — no data team required.

- Upload your datasets, ask questions, and get instant insights, charts, and dashboards in seconds.

- Predict trends and uncover optimization opportunities on the go.
- Runs securely on your own system, keeping your data private and fully under your control.

- Designed to make powerful data analytics simple, fast, and completely yours.

Our Impact

Directorate of EDCS
Government of Karnataka

- Built an AI-powered virtual trainer that simulates real-world survey scenarios.

- Offers instant feedback and performance insights.

- Helps users train faster, improve accuracy, and reduce survey errors.

- Enables scalable, consistent training for large teams across regions.

Our Services

- Turn ideas into intelligent AI solutions.
- Build smart chatbots and automation tools.
- Provide predictive analytics and Generative AI (content, voice, recommendations).
- Create custom AI models for your business needs.
- Manage MLOps with cloud or on-premise setup.
- Work across education, healthcare, and enterprise sectors, setting up AI Centers of Excellence (COEs) to drive innovation and adoption.
- Deliver secure, scalable, and ready-to-deploy AI systems.

About Us

At Equilibrate.AI, we're passionate about making advanced AI accessible, intuitive and secure. Based in Bengaluru, we specialise in building intelligent solutions that help companies turn data into insight, conversations into actions, and complexity into simplicity.

We believe that every organisation—large or small—should have access to smart tools that deliver real value, without needing huge infrastructure, armies of analysts or deep learning experts. We partner with you to bring AI into your workflows in a way that feels natural, meaningful and impactful.

Reasons Why You Should Choose Our Services

Speed & agility: Get up and running quickly with pre-built, configurable solutions

Localised control & security: Especially with ADRO, your data doesn't leave your environment—offering you the highest level of data governance.

Future-ready: Our tools are designed for extensibility, meaning you can layer on new use-cases as your needs evolve

Cost-effective intelligence: Avoid large overheads of custom builds, deep analytics teams or high infrastructure costs—our solutions are built to deliver impact with lean setups.

Company Vision and Mission

Our Vision

To democratise intelligence—empowering people and organisations everywhere with smart AI-driven tools that elevate possibilities, simplify decisions and shape a better digital tomorrow.

Our Mission

- Build secure, scalable and intuitive AI platforms that put the power of data and conversational intelligence into your hands.
- Enable seamless automation, insight and interaction—so your teams spend less time on manual tasks and more time on what truly matters.
- Uphold the highest standards of data security and privacy—ensuring your insights remain yours, your data remains safe, and your trust in technology grows.
